

NAMAN PANDEY

Analyst at HCLTech | Aspiring DevOps Engineer

Mob No: +91 7355495778 | Email: namanpandey2402@gmail.com | Linked In: /in/namanpandeylko | GitHub: Namanlko

CAREER OBJECTIVE:

IT professional with 1.5 years of experience in IT infrastructure, including Windows Server administration, VMware (ESXi, vCenter) and Nutanix (Hyper Converged Infrastructure). Currently transitioning into DevOps, with a strong interest in automation, cloud technologies and modern infrastructure practices. Gained hands-on experience with Docker, Kubernetes, Jenkins (CI/CD), Ansible, Terraform and AWS. Actively looking for a DevOps role to apply my skills and contribute to organization growth.

PROFESSIONAL EXPERIENCES:

HCLTech | Analyst

Jul 2024 – Present

- Manage 1000+ Windows Servers across hybrid environments, ensuring high uptime, troubleshooting critical issues and automate Active Directory tasks like user accounts and access management and reporting using PowerShell scripts.
- Manage VMware vSphere infrastructure, deploy VMs using templates, upgrade vCenter/ESXi and automate VMware Tools upgrade.
- Administer Nutanix clusters, handling LCM upgrade, resolving critical issue with vendor support, and maintaining cluster performance.
- Handling patching via SCCM, scheduling and applying updates and remediating of Microsoft vulnerabilities to maintain compliance.
- Support end to end ITSM processes, include queue management, incident management and change management, ensuring timely resolution of issues, adherence to SLAs, and smooth execution of changes in collaboration with internal teams and vendor support.

HCLTech | Software Engineer Intern

Aug 2022 – Nov 2022

- Developed a responsive E-commerce web application using React.js with Tailwind CSS for a dynamic mobile-first front-end, Node.js for back-end REST APIs and integrated Razorpay to enable secure transactions, following clean code and industry best practices.
- Containerized application stack using Docker with Node.js, React.js and MongoDB, ensuring consistent development and deployment.
- Deployed the Dockerized application on EC2, configured Nginx as a reverse proxy and secured it with SSL certificate for HTTPs.
- Gained practical experience in full stack web development, API integration, cloud deployment (AWS), and Docker based application delivery, building a scalable, production ready solution.

KEY PROJECTS:

End to End Deployment of a Three-Tier App GitOps on AWS EKS Cluster

- Led the deployment of a three-tier application on AWS EKS, utilizing GitOps with ArgoCD to automate & streamline the delivery process. Reduce setup time by 30% using Terraform for AWS provisioning. Achieved a 95% deployment time success rate with zero down time by implementing a Jenkins driven CI/CD pipeline.
- Cut manual intervention by 80% through ArgoCD integration, ensuring seamless synchronization between GitHub and EKS.
- Improved issue detection time by 40% with Prometheus and Grafana, enabling faster response to critical alerts.
- Delivered a 99.9% deployment success rate, improved scalability, and reduced manual efforts by 90%, significantly enhancing operational efficiency and system reliability.

Deployment of a Three-Tier Application on AWS EKS

- Deployed a scalable three-tier application on AWS EKS, utilizing Kubernetes for orchestration and AWS ALB for load balancing.
- Enhanced application scalability, supporting a 50% increase in user traffic without performance degradation.
- Leveraged AWS ALB, achieving 99.9% uptime and efficient traffic distribution across the various nodes.
- Gained hands-on experience in Kubernetes and cloud infrastructure management, reinforcement production level deployment skills.
- Delivered a robust, scalable application in a production environment, improving reliability and ensuring seamless user experiences.

TECHNICAL SKILLS:

Programming Languages: Python, JavaScript, Java (Object Oriented Programming, Data Structures & Algorithms)

Web Technologies: JavaScript, Node.js, React.js, HTML, CSS, Tailwind CSS, MongoDB, MySQL

Cloud Services: AWS (EC2, S3, DynamoDB, RDS, Route53, Lambda)

DevOps Tools: Linux, Git, GitHub, GitLab, Jira, Docker, Kubernetes, Terraform, Ansible, EKS, Grafana, Prometheus

Administration: Windows Server, Windows PowerShell, VMware (vCenter & ESXi) & Nutanix (Hyper Converged Infrastructure)

EDUCATION:

B.Tech in Electrical Engineering | Dr. APJ Abdul Kalam Technical University, Lucknow | **8.97 CGPA**

2019-23

Senior Secondary (Class XII) | Rani Laxmi Bai Memorial Senior Secondary School, Lucknow | **91.4 %**

2018-19

Secondary (Class X) | Rani Laxmi Bai Memorial Senior Secondary School, Lucknow | **10 CGPA**

2016-17

PROFESSIONAL CERTIFICATIONS & TRAININGS:

Microsoft Certified: Azure Fundamentals (AZ-900), 2024

ICT Academy, IIT Kanpur: Python Programming - A Practical Approach
